

## **Portability Layer**

func\_append ()  
func\_remove\_prefix ()  
func\_remove\_suffix ()

## **Command-line Parsing**

func\_usage ()  
func\_version ()

## **Simple utility functions**

func\_exit ()  
func\_fatal\_error ()  
func\_warning ()

## **File utility functions**

func\_gnulib\_dir ()  
func\_tmpdir ()  
func\_readlink ()  
func\_relativize ()  
func\_relconcat ()  
func\_ln ()  
func\_ln\_if\_changed ()

## **Accessing files of gnulib or local gnulib dirs**

func\_lookup\_file ()

## **Modules and their classification**

func\_sanitize\_modulelist ()  
func\_all\_modules ()  
func\_exists\_module ()  
func\_verify\_module ()  
func\_verify\_nontests\_module ()  
func\_verify\_tests\_module ()

## **Pieces of module description**

func\_get\_description ()  
func\_get\_comment ()  
func\_get\_status ()  
func\_get\_notice ()  
func\_get\_applicability ()  
func\_get\_filelist ()  
func\_filter\_filelist ()

func\_get\_dependencies ()  
func\_get\_autoconf\_early\_snippet ()  
func\_get\_autoconf\_snippet ()  
func\_get\_automake\_snippet\_conditional ()  
func\_get\_automake\_snippet\_unconditional ()  
func\_get\_automake\_snippet ()  
func\_get\_include\_directive ()  
func\_get\_link\_directive ()  
func\_get\_license\_raw ()  
func\_get\_license ()  
func\_get\_maintainer ()

## Support for conditional dependencies

func\_module\_shellfunc\_name ()  
func\_module\_shellvar\_name ()  
func\_module\_conditional\_name ()  
func\_uncond\_add\_module ()  
func\_conddep\_add\_module ()  
func\_cond\_module\_p ()  
func\_cond\_module\_condition ()

## Emit generated .m4 files and Makefile.ams

func\_emit\_copyright\_notice ()  
func\_get\_tests\_module ()  
func\_acceptable ()  
func\_modules\_transitive\_closure ()  
func\_show\_module\_list ()  
func\_modules\_transitive\_closure\_separately ()  
func\_determine\_use\_libtests ()  
func\_modules\_add\_dummy ()  
func\_modules\_add\_dummy\_separately ()  
func\_modules\_notice ()  
func\_modules\_to\_filelist ()  
func\_modules\_to\_filelist\_separately ()  
func\_compute\_include\_guard\_prefix ()  
func\_execute\_command ()  
func\_dest\_tmpfilename ()  
func\_add\_file ()  
func\_update\_file ()  
func\_emit\_lib\_Makefile\_am ()  
func\_emit\_po\_Makevars ()  
func\_emit\_po\_POTFILES\_in ()  
func\_emit\_tests\_Makefile\_am ()  
func\_emit\_initmacro\_start ()  
func\_emit\_initmacro\_end ()  
func\_emit\_initmacro\_done ()  
func\_emit\_autoconf\_snippet ()  
func\_emit\_autoconf\_snippets ()

## **Import into a package**

`func_import ()`

## **Creating testdirs**

`func_create_testdir ()`

`func_create_megatestdir ()`
